THIS WORD DESCRIBES ME BEST:

idk peaceful or happy everytime

I am 15 years old and I am living with my parents and my little brother (he is 13) in a house in Bremen. My hobbies are playing football, riding my bike, playing the piano and the guitar. I am in a football club and we are training usually 2-times a week.

Our house has five levels, including our cellar and attic.

My room is on the second level and I've got a small balcony.

Near our house is the "Werdersee". In summer I am swimming in there and I am meeting my friends there.

Maybe this summer holidays we go to Norway or to Sweden with a tent or a camper but maybe Corona is the reason of closing the borders and we have to go anywhere else. The previous years we traveled to more than 15 different European countries, but we've never been to Norway.

Maybe one important fact you have to know about me is, that I am vegetarian. But I like cheese and other things really much.
