

My profile about my life

Hey guys,

my name is Fiona and I'm 16 years old. I'm living in Bremen with my 13 year old brother Lukas and my parents Frauke and Andreas.

My passion is playing handball. This is what I do most in my free time, too. The other time I read a lot of books, listen to music or I meet my friends and we have fun and a great time!

My other passion is Make-up. I have a lot of Make-up and love it to create looks with it.

Furthermore I love animals and that is why I decided to become a vegetarian about one year ago.

Also I LOVE to travel and discover new places and I think it is very cool, if you can understand and speak many different languages. So I'm learning English, Latin and Spanish and these are also my favourite subjects together with physical education in school.

I'm really excited to get to know you all and I hope that we will have a great time together!
