

SUPER COMPUTERS

-The origin-

Super Computers were created by Seymour Cray in 1960, at Cray Research.

-Use-

These are used for complex calculations, intensive tasks, mechanics, quantum physics, meteorology.

-Super Computer in Portugal-

The first Super Computer in Portugal was opened on 5/07/2019, in Riba de Ave.

-Business-

As the cost of supercomputing declined in the 1990s, more companies started using Super Computers.
