## THE ELEMENTS ESCAPE ROOM

### Video presentation:

#### WARNING ALARM!!!

- Hi little students, you have been selected to be the nature guardians.
- We are the nature queens and we need your help.
- I'm the queen of air.
- I'm the queen of water.
- I'm the queen of fire.
- I'm the queen of earth.
- The 4 elements have been captured by Dr. Sioutwo.
- The only information that we have is that they are captured in four different locations, so you need to find where are them and figure out a way to recover them.
- We can't live without them so we need your help to gather the fire, the water, the air and the earth.
- You have **one hour** to accomplish this challenge and save us.
- You should organize yourselves in international troops,
- soon each **captain** will receive more instructions via mail.

### Hints:

#### **1st hint:**

- Email

Hello Nature Guardians,

As you were told we need your help to solve this problem.

The only information that we have is that they are captured in four different places, so you need to find where they are and how you can recuperate them.

The elements are captured by Dr. Sioutwo, he is crazy and a bit distracted. We know that because we have found his backpack with some things.

They should be helpful for your investigation!

Good luck!!!

## 2nd hint: MIDDTIME WARNING

- [Email](#)

Hello Nature Guardians,

We have some news for you. We have just found a video about a natural disaster that happened a few hours ago in Alaska. We think that it might be related to our investigation.

### Video link:

There's a reporter speaking from Alaska.

Script: The ice here is melting so fast, scientifics don't know what is happening, their hypothesis is that something it's making heat under the earth. We will inform when we have more information.

### COMPASS AND WIG:

The compass is a souvenir from a restaurant, and it has the name on it. They have to search in google maps and when they will see that it is a [restaurant](#). In the restaurant photos they see is a restaurant with two (one with a wig). There is also a link on the web. In this link you can listen an audio, the audio is the conversation between the two persons. They are talking about the pin of the box, where the air is captured.

### AUDIO CONVERSATION:

- Wow what an amazing place!!!
- **Yes, Viena it's a very ingenious name and this one in Granollers it's amazing.**
- Yes yes but let's talk about the main point, you know why we are here?
- **Of course, Sioutwo has a problem with Air and we need to help him.**
- But I've already done it, I hide the Air in Sagrada Familia.
