

Tentative Sessions

Category	Session	Description	Presenter
ICT Skills	The Twinspace (How to organize it and use it effectively)	Introducing Twinspace's different features, and how teachers can utilize them in order to communicate with their project's partners, and document their activities.	Yrjo Hyotyniemi/ Finland Dontella Nucci/ Italy
	Using eTwinning Live	ETwinning Live tools and guidelines for partner finding on the platform.	Liliana Nederita/ Poland
	Online Collaborative Tools	Teachers will learn how to use and employ different ICT educational tools to improve the students' academic skills.	Hanan Abu Rashed/ Jordan eTwinning Ambassador
	Game-based Learning Using Kahoot	Gamification has become the new trend in the education field. Teachers will be able to design games via Kahoot for educational purposes and differentiate between games-based learning and gamification.	Tamer Qaraeen/ Jordan
Core Skills	Multiple Intellects	Howard Gardner Model: How we can help language teachers to give recognition to the holistic nature of learners and to address student diversity. These different intelligences reflect a pluralistic panorama of learners' individual differences; they are understood as personal tools each individual possesses to make sense out of new information and to store it in such a way that it can be easily retrieved when needed for use mainly in collaborative work in eTwinning projects.	Ahlem Ben Ali/ Tunisia
	Creating and Planning a Project	How to register and start planning a project using the 10 rules to discuss what, when and how. When going home all participants should have a project registered and access to a Twinspace and discussed how to build and use it.	Lisbet Gregersen/ Norway
	CRAFT	An introduction to CRAFT (Creating Real Advanced Future Thinkers) - purpose, goal and students work. We will go through a CRAFT process ourselves	Mads Sode/ Denmark
	Why We Teach. Why We Learn	Helping teachers to reflect on what motivates them and why.	Mania Mubaslat/ Jordan
Environmental Learning	Teaching and Learning Environmental	Using recycling and environmental tools to enhance teaching and learning	RSCN/ Jordan
	Clean Energy and My School	Using alternative and clean energy in educational projects.	HTU/ Jordan
	Urban Agriculture in Schools	Developing a hands-on activity guide for school students on urban agriculture to help them learn sustainable development.	CSBE / Jordan
