

“INTERSTELLAR”

Interstellar is a 2014 epic science fiction film directed by Christopher Nolan and starring Matthew McConaughey, Anne Hathaway, Jessica Chastain, and Michael Caine. The film features a crew of astronauts who travel through a wormhole in search of a new home for humanity.

1. What are your first thoughts on the plot?
2. I'd like to hear your views on the possibility for humanity to do this type of travel.
3. Anyway I'm sure you'd agree that it is well made; did you like sound effects?
4. If scientists built a shuttle, in a next future, would you like going toward another planet, leaving your Earth?
5. However, every day we have to deal with environmental problems caused by human beings. Am I justified in saying that we can save our Earth?
6. Finally, do you like seeing science fiction films?

“THE MAN FROM EARTH”

The Man from Earth is a 2007 American drama science fiction film written by Jerome Bixby and directed by Richard Schenkman. It stars David Lee Smith as John Oldman, the protagonist.

The plot focuses on John Oldman, a departing university professor, who claims to be a Cro-Magnon who has secretly survived for more than 14,000 years. The plot advances through intellectual arguments between Oldman and his fellow faculty members.

1. Let me see, why does the protagonist leave the city?
2. What people did he meet in the past?
3. I'd be very interested to hear your views on the crucial moment of the film.
4. How does the film finish?
5. Is it based on a real story or on a book?
6. What kind of film is it?
7. I'm sure you'd agree that it is an astonishing film: isn't it?
8. Do you share my view that it could be the starting point for a Physics project?

“THE THEORY OF EVERYTHING”

The Theory of Everything is a 2014 British biographical romantic drama film directed by James Marsh and adapted by Anthony McCarten from the memoir *Travelling to Infinity: My Life with Stephen* by Jane Wilde Hawking, which deals with her relationship with her ex-husband, theoretical physicist Stephen Hawking, his diagnosis of motor neurone disease, and his success in Physics.

- 1. Life is worth living: do you agree with this opinion?**
- 2. Do you think that Stephen is pessimist?**
- 3. I'm sure that this film invites us to reflect on Religion and so on God. Does Stephen believe in God?**
- 4. Due to his terrible illness, does he lead a life different from his friends?**
- 5. What are your views on the value of seeing this film genre in a class as we have made today?**
