9. How would you define the 1st meeting in Trikala?

excellent	good	satisfactory
6	0	0

10. Write your comments (if you have) about the 1st meeting in Trikala?

Answers:

The meeting has been really profitable.

We shared lots of innovative methodologies which can be used and shared among my colleagues in my school.

Thanks a lot to the Greek partners for their warm hospitality.

The coming together of 6 schools ran well. Not in even case could be expected a very fast process, but in the end we were able to come to results for working, communicating and planning.

All the teaching training activities were helpful with profound development.

In the end the overall idea is that in the kick-off meeting all the partners were able to create a strong sense of cooperation.

The Greek team was very helpful for having a good start through effective teachers' learning strategies.

All the team was very helpful and provided us with everything are needed in order to do all the activities in time. All information was clearly presented and useful for the purpose of the meeting. The training activities provided us with tools and ideas that are interesting and good to be used in future lessons/ activities/projects.

I' d appreciate very much the company of Trikala's teachers, their comments, their information and the help for managing the Erasmus+ project.
