## COMMENTS AND SUGGESTIONS

### How do you think the activities could have been made more effective?

- Small groups
- International groups of 6-7 persons after info in bus.
- Nice to let parents take part and see the whole group.
- It shouldn't have lasted too long (Geocaching-Gymkhana).
- Less time to spend there (Geocaching-Gymkhana).

### General comments about the 2<sup>nd</sup> meeting in Santa Comba:

- You have a great team and a lot of beautiful people involved in the project. The activities were new and appreciated by our students who want to share their experience when they get to school. Everything was clearly planned and matched the purpose of the project. Marisol and Anabel are two wonderful organizers and they pay attention to details, which is important for the success of the activities.
- The meeting was organized very well and it will be beneficial to the students and the teachers, as it broadens our horizons.
- It was a great learning experience, a constructive way of learning. Anabel and Marisol are very patient and pay attention to the needs of the participants regarding all aspects.
- It was a great experience and I think it improved our abilities to learn good practices of staying together and share them to aim at a very constructive atmosphere useful to make European spirit and way of thinking more and more representative of people.
- Excellent hospitality at school, excellent families' hospitality, very effective teachers' meetings, very nice activities for the students.
- Very good programme, engaged teachers and students, well organized, very good conditions (rooms, driving, weather).
- I may define it with only one word: excellent.
