COMMENTS AND SUGGESTIONS:

How do you think the activities could have been made more effective:

- The visit to the open-air museum in Wygieźzów could have been shorter.
- The information provided by the guide at the Wieliczka Salt Mine could have been delivered in a more meaningful and clear way.
- The guided tours could have been conducted in smaller groups.

General comments about the 4th meeting in Kraków:

- Excellent choice of place for the project; friendly students; teachers and students worked very well together; interesting programme; very enjoyed Polish teachers; great to see the raising awareness for our responsibility; meaning of history was clearly recognizable; amazing team
- It was a satisfactory meeting and in accordance with the aim of the project.
- The meeting was a great experience. Students had the opportunity to work with students from other countries and see new places. The hospitality from the families and the school was fantastic. The activities were interesting and well-organised.
- Good connection between heritage and today's life; active engagement of students; effective activities adjusted to the objectives.
- The work in multinational teams was one of the best done so far in the project
- The school in Kraków was very lucky to find the right teachers to be in charge of the project, a very difficult task that has been successfully conducted by Iza and Marta. It is amazing the way they have cooperated in order to fulfil the aims of the project and expectations of all partners in such a short period of time.
- I appreciated the enthusiasm of all the students, their positive attitude towards the project and their involvement in each section. I largely appreciated the warm welcome from all the teachers involved in the project.
- The students felt very welcome and enjoyed the time as they said. We teachers felt very welcome as well and had a great time in the city with the historical interesting locations and tasty kitchen. You did a great job!
