Erasmus project:

Arron

The visitors from our European partner schools will be arriving on May 16th and staying the week.

One of the projects is a comparison of a typical teenage day across Europe.

As your **son** has visited a number of European countries with this school project, she has been asked to complete a diary of a typical day.

Could you please start the diary off at home and send it in the same day.

Many thanks,

Ms Grogan and Mrs Dewhurst
