Any comments...

10 réponses

- it was very good and interessant ! But i think it should have more communication with others class (but there was Covid so...)
- no
- banger
- this project was a good idea
- it is not the fault of the project but discussion with students was too hard because we had difficulty to exchange with them during the project
- It was a good thing but our framapad crashed so it was hard to focus on it when we lost everything
- it would be nice to be able to talk with other students from other countries, other things than lessons (group calls, exchanges about culture, ...)
