Environmental issues in Romania

Students: Andrei Delia

Bamboi Lavinia

Dumitriu Stefania

Prisecaru Oana

Ungureanu Alexandra

Co-funded by the
Erasmus+ Programme
of the European Union

Environmental issues in Romania

**Physical and chemical
pollution**

Deforestation

Land slides

Causes

A large number of cars polluting the atmosphere

The industry

The lack of ecological education

The need for resources, the need for land

Poverty and illegal Deforestation

Non-compliance

Deffective construction of infrastructure (roads)

Source: www.google.com

Effects

acid rain

landslides

floods

the disappearance of some plant and animal species

washing fine fertile particles

small agricultural production

pollution (increase in CO₂ concentration)

The effects of acid rain

Floods in Moldova

Preventive measures

ecological education

reuse and recycling

replacement of wood materials with other materials (carpentry etc.)

reforestation

Countermeasures

the use of wood waste - OSB, sawdust (briquettes - pictures)

stunning unconventional energy resources (wind, solar power)

walking, cycling (bicycle path pictures)

avoiding the use of degraded, eroded lands (do not step, do not cultivate)

construction of supporting walls (examples - landslides)

Countermeasures

botanical garden

ecological landfills (Tomesti examples, google map pictures)

selective collection of waste (pictures of factories recycling plastic, paper)

ecological events (pictures) can be added to concrete pictures from large polluting companies (Rosia Montana, chemical combinations, crowded city pictures, smoke)

THEIR SECRETS WILL BE SHARED

WELCOME TO...
