- I really enjoyed all the training activities!

- The training sessions could be improved if we had more time in the mobilities and put them into practice with our partners.

6. SUGGESTIONS FOR IMPROVEMENT

Numero di partecipanti: 2

- Less time for trains. More for Herculaneum.
- All the programmed activities were quite adequate, maybe the only suggestion was to have been more time visiting the ruins of Herculaneum. The train museum was interesting but as I studied Art my priorities were others.

- I missed talking and discussing specific questions about the project. The first coordinators mobility could be longer than 5 working days.

10. SUGGESTION FOR IMPROVEMENT

Numero di partecipanti: 2

- Thanks for everything.
- The topics and agreements were resolved although a bit more time getting to know the working processes of our partners could have been useful.
