

In Ignacio's farm there are 180 animals.

- $\frac{1}{5}$ of these animals are chickens,
- $\frac{1}{3}$ of these chickens has got one eye,

How many chickens has got one eye?

- Half of these animals are cows and the rest are pigs.

How many pigs are there?

BY: Selma and Natalia

solution: 12 chickens have got one eye. There are 90 cows and 54 pigs.
