Hit two of the following problems:

1. If a penguin has got 2 legs and 2 eyes, and a frog has got 4 legs,
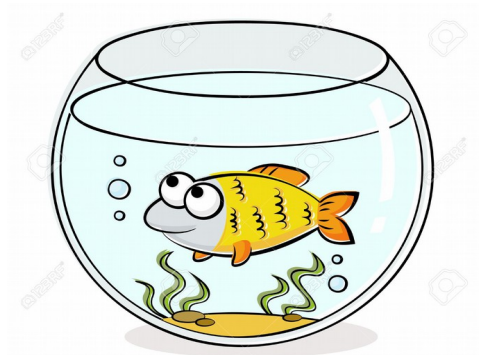

how many eyes has got the frog?

2. In a castle there is a princess with a rope and a sword. She wants to go to the town, but on the way there are dying of hunger lions.

How does the princess cross?

3. If I´ve got a fishbowl with 500 fishes and 150 of them die drowned.

How many fishes remain?

BY: Marta and Sandra

SOLUTIONS:

1. The frog has got two eyes !!
2. Lions are dying of hunger literally.
3. Fishes can not dye drawned !!!!
