

19th and 20th of January: a week-end with Mathys's family.
Let's discover our local fire station!

In Saint-Genès-Champanelle, we have a fire station and Mathys's Dad is a fireman.

Firemen in our village are volunteers.

You can see Golden Eyes in front of the uniforms and with a helmet, and also in the office, where they receive the phone calls to be helped.

There are different kinds of vehicles in our firestation:
This is the one to help injured people.

VSAV : Véhicule de Secours et d'Assistances aux Victimes

**CCR: Camion Citerne Rural
2750 L d'eau + Matériels Incendie**

**CCGC: Camion Citerne
Grande Capacité
10000 L d'eau**

Those are trucks to fight fire.

The one above is the big one with 10 000l of water.

The one with Mathys's Dad is smaller, with 2 750 liters of water.
