- ◉ INFORMATIONS ABOUT THE INTERNET
- ◉ WHY DO WE NEED THE RIGHT TO PRIVACY USING THE INTERNET?
- ◉ HOW YOU CAN PROTECT YOURSELF USING THE INTERNET?

INFORMATIONS ABOUT THE INTERNET

- > When you are using a social network like Facebook you are posting a lot of personal informations on the Internet.
- > The people who are visiting your account can see your personal data.
- > This includes also people you don't even know or like.

WHY DO WE NEED THE RIGHT TO PRIVACY USING THE INTERNET?

- You need to protect your privacy because things exist that other people don't need to or should know about you.
- You have the right to share your personal information just with people you want to.

HOW YOU CAN PROTECT YOURSELF USING THE INTERNET?

1. YOU SHOULD TAKE CARE OF WHAT NETWORKS YOU ARE REGISTERING. BECAUSE THERE ARE MANY PEOPLE THAT MAY EXPERIENCE INFORMATION ABOUT YOU THAT YOU MAY NOT KNOW.
2. CHOOSE A PASSWORD THAT IS VERY SAFE AND PROTECTED. DON'T GIVE THE PASSWORD TO YOUR BEST FRIEND, BECAUSE YOU NEVER KNOW!
3. DON'T ANSWER ON MESSAGES THAT ARE UNCOMFORTABLE.
4. TAKE ONLY FRIENDSHIP QUESTIONS IF YOU ALSO KNOW THESE PEOPLE.
5. DON'T SHOW SO MUCH OF YOU.
6. PUBLISH NOTHING ABOUT OTHERS WHAT THEY DON'T WANT.
7. SURGE WHAT YOU WRITE OR POST. BECAUSE THE INTERNET SAVES EVERYTHING.
8. IT IS VERY IMPORTANT THAT YOU PEOPLE YOU DON'T KNOW DON'T REVEAL TOO MUCH ABOUT YOU. IT CAN ALSO COME TO KIDNAPPING OR THEFT.

SO, ALWAYS WATCH WELL!
