

The thing that we like most about Institut Escola Gavà Mar is the liberty that school give us in terms of activities, we can do it in groups or if we don't like doing it in groups we can also do it alone.

And we like too where is situated, that gives us a lot of new ideas and we are in a good mood to be concentrated while being in class.

We also love the teachers that we have here, they help us a lot when we have some trouble when we are doing an activity or when we don't understand something...
