

My First Mobility in “Folklorica” Erasmus+ Project

My week to Cyprus was one of the best in my life because I learnt a lot of things about the antic Cyprus - their kings, their castles, the traditions, but also about the present ways of leaving in this country and the Greek language. I know a few words like “kalimera=good morning”, “kalinychta=good night”, “Se agapo=I love you” and the from 1 to 10, that my family from Cyprus taught me. I found that there are Greek Cypriots and Turkish Cypriots, depending on the district and its capital is Nicosia.

In my opinion Paphos is a very beautiful city with nice people, with a great view at the seaside, being situated in the western part of the Cyprus, at the Mediterranean Sea, so I had the chance to swim and to go on the beach in April. There is a beach with sand (Venus Beach) and a beach with stones.

Our school program was very varied: workshops with the kids from school, visits to the most important places in the area with the groups from Erasmus project, free time with the families.

School is different from ours. The teachers are very, very friendly and Miss Eleni was the best.

I leant and I made my first painted t-shirt and my own magnet with stones and glass. I ate traditional food and it tasted better than Romanian traditional food.

I've made friends from school and from other Erasmus groups.

My host family was like a family for me. They always treated me like I was the third child, we had very much fun, me and the kids were like brothers. Their names are: Dimitrie – the dad, Koulla – the mom, Aggheliki – the sister, Nikolas – the brother and they are very friendly (even the granny and the grandpa).

In the first day I was a little bit shy, but after I became comfortable, I was happy!
