

I have lost a handkerchief

1. The children are standing in a circle. One of them, with his handkerchief in his hand, has to move outside the circle singing the lyrics of the song:

I have lost a handkerchief,
My mother will beat me
Whoever has the handkerchief,
Please give it to me.

The fragrant handkerchief
At a nice girl, there is
So nice girl I could see
And happy she makes me.

2. After the singing is over, the child who finds the handkerchief behind him must take the handkerchief and run after the one who left it. If he catches it, he takes his place if he doesn't, he returns to the circle and he will go outside the circle with the handkerchief (or another random player from the circle is chosen so that the situation does not happen again).
