

Do you remember that profession?

An eTwinning Project 2017/18
for the 65th European Competition

Our Game

We collected some facts on traditional professions in trading cards.

We also provide the names of these professions in the languages of the participating countries.

The cards can be used to play a memory game.
For that reason there are card 1 and card 2 for each profession.

You can print the booklet, or just the eight pages in the middle and cut out the cards. Here we go, you are ready to play.

Enjoy!

eTwinning in the European Competition

European Competition

Dying Professions

Module 3-2

Do you know what a furrier does or what a trimmer, a blue printer or a basket-maker is? Many old artisanal trades in Europe have fallen victim to the increasing mechanisation and industrialisation of the last two centuries. Explore the subject of craft traditions in Europe.
