Erasmus+ “Work in progress – My logbook“

(Name)

Dear student,

in order to keep track of your project work you should keep **a logbook**. For each day, please

1. describe what you did on that day (activities, workshops, excursions...).
2. sum up what you have learnt about the topic “Air pollution in big cities”.
3. describe and evaluate your project work, i.e.
 - a) which steps you have already taken, and which steps you still have to take (see project plan) and whether your project work is going according to your set project plan.
If not, what could you do to solve the problem(s)?
 - b) your team work, e.g. your cooperation, your communication.
In what way is it going well? What could be improved?
 - c) what you have learnt in terms of project work.

Illustrate your logbook entries by adding e.g. pictures, photos, extracts from brochures, used tickets.

Of course, you can keep an online logbook.

Friday, 24th November 2017

7.45:

Auditorium: -getting some information and an overview about the programme.

-model debate

-some little workshops with the project team

13.30:

Eating: going to Mac Donald's

14.00:

Sports session: doing sports:

- volley ball, table tennis, basketball

15.00:

Auditorium: OK Lab presentation: talk and discussion

→ I learned that with the air pollution rate also the sick rate increases or decreases at the same time.

→ other information to the measurements of the OK Lab and possibilities: more precisely and exhaustive

Then:

Working: planning the project (fill out the project plan)

→ splitting up the work for the project

Saturday, 25th November 2017

9.40:

Daimler Museum: visiting the Mercedes-Benz-Museum in Stuttgart

12.45:

Mister X: playing Mr X in Stuttgart, fleeing from the other Erasmus-groups by using public transport

→ We saw that Stuttgart lies in a valley / cauldron → "bad air" can't escape → more air pollution

→ Learned that you can get with public transport almost everywhere in Stuttgart

15.00:

Stuttgart: walking through Stuttgart → We saw "carsharing" and electric cars → better for environment
