

My project: Theatre Performance

1. Short description of project (What? Where and when? Why? Who? ...)

For our Drama Class mark, we all needed to do a theatre performance of a play we chose. Every student of the class had their part to play and do. We performed in our class room which is the assembly hall of our school. The performance was on the 4th of June.

2. Main goal(s) and objectives (What do you want to achieve?)

We wanted to achieve a great performance as well as a good mark.

3. Project team (Who is part of the team?)

Part of the team was of course every Drama Class student, our teacher and some students from the advanced art course.

3. Project plan (Who does what and when?)

See project plan worksheet

4. Resources (What do you need?)

We needed costumes, someone for the lights and music, props like a mousetrap and a coffee machine, party music and crashing noises.

5. Constraints (Which obstacles might get in your way?)

Our only obstacles were pretty much only time, learning the text and getting everyone together.

6. Evaluation (Did you achieve your main goal? What went well? What went wrong? Which difficulties did you encounter? How did you solve them? ...)

We did achieve our main goal of a great performance. There was pretty much nothing which went wrong so that was good, the only thing that happened was that I forgot part of my text but I was able to kind of overplay it so that the only one that I confused was the person I played with on stage.

As stated above the only obstacles and as well as difficulties were that we needed more rehearsal days as planned because we all lacked the ability to play without our text in our hands and we never could rehearse with everyone together. There was always someone missing.

We also needed a way to include the students from the advanced art course. In the end they were background actors.
