

Erasmus+ “Work in progress – My logbook“ _Arlinda.K_

Dear student,

in order to keep track of your project work you should keep **a logbook**. For each day, please

1. describe what you did on that day (activities, workshops, excursions...).
2. sum up what you have learnt about the topic “immigration”.
3. describe and evaluate your project work, i.e.
 - a) which steps you have already taken, and which steps you still have to take (see project plan) and whether your project work is going according to your set project plan.
If not, what could you do to solve the problem(s)?
 - b) your team work, e.g. your cooperation, your communication.
In what way is it going well? What could be improved?
 - c) what you have learnt in terms of project work.

Illustrate your logbook entries by adding e.g. pictures, photos, extracts from brochures, used tickets.

Of course, you can keep an online logbook.

Friday, 8th February 2019

All the Erasmus People met in the Auditorium, and we were welcomed by the principle of Enrique´s and by the teachers of the Italian school. The teachers introduced the topic „Immigration and concepts of integration“, and we talked about that. After that, the Italian students showed us their school and they described their school system. Then, we had some free time, and the Italian students had the idea to do some karaoke with everyone, so it was somehow a battle against the different countries, which made a lot of fun. Following, we presented our Podcast about the topic, which was given to us before. When we had finished the Podcasts, we made some mixed groups with people from the other countries to do some research about how immigration will change Europe in 20 years in the aspect of borders, cultures and languages. After the break we went to a museum, which was about a famous artist and his intention of doing art. When we were finished, we walked around Castelfiorentino to see the town and some sights. Then, when everything was finished, we went home to our host families.

On this day we have learned a lot about immigration, not just in Germany, but also in Scotland, Italia, Estonia and Finland, additional how people react in front of them. This isn't all, there was still the debate on Immigration and integration with some representatives in front of us.

Saturday, 9th February 2019

On this day, we've met at school for heading to Florence together. After finally arriving in Florence, we had a little tour of the city centre with the teachers, where we saw many impressive sights. We also talked a lot with the other people, and it was really fun. After the teachers were gone, we had some free time, which was mainly used to visit some interesting places in Florence, also more sights and to eat something. Then, when everything was finished, we took the train home.

On this day we didn't really talk about immigrants or immigration, but it was good to learn something about Italy and Italian people in general.

Sunday, 10th February 2019

On this day, we went out with our host families. My host family decided to go to two places. First, we went to Monteriggioni, a little town in Tuscany. There we visited an old castle, and it was very interesting to see these old buildings. After that, we went to Siena, a very famous city in Tuscany. There we also visited some sights and the old city. The host father also told me some things about Italy. Lastly, we went home and watched a movie together.

From my host family, in particular from the host father, I have learned something about the Italian economy, and how the Immigrants are integrated in some parts of Italy.

Monday, 11th February 2019

Firstly, we all met in Auditorium, to debate on Immigration and integration with some representatives of OXFAM PRAR, with a girl named Francesca, a former student from Enrique`s and some other teachers. Everyone of them told us something about Immigration in Italy, Integration in Italy and the ways how they travel to Italy to become asylum. They also talked about when Immigrants are entitled to get a residence permit. After talking together we walked to the bus to go to San Gimignano, where we had some free time to walk around when we had arrived. In this time, we went to some shops to buy some souvenirs, after that we went to a restaurant to eat something. Then, when we had finished everything, we made some groups to make a tour of the upper town. While this, we’ve visited some sights and important places in San Gimignano. In the end we returned to Castelfiorentino, then some of the Erasmus people went to a Luna Park, where people could play different things.

To sum everything up, we talked a lot about Immigration and Integration, but the Podcasts of the different groups were still in front of us.

Tuesday, 12th February 2019

Tuesday was our last day of the Erasmus Project week. Here some of us completed our project work in a brochure, the other people worked in the international teams, to start to work again on our text for the Podcasts. There we discussed and talked together about the question what will happen with Europe and the people there because of the Immigrants in 20 years. After writing our questions and solutions down we went to a room to record our second Podcast. Then we uploaded the files which were produced by the mixed teams and went to lunch break. This was hold at Enrique`s school, and it was interesting to see how they educate their students. We ate at a restaurant with students working as cooks and waiters. It really seemed like we where in a real restaurant, the students were also playing their role serious. After finishing lunch, we went back to Auditorium, and there they played some music, students were singing and dancing for us. It was amazing to see them. In the evening, after going home, we had some time to dress up more formal for a real restaurant with all students and all members of the Erasmus project in Italy. There was a lot of food and some of us were dancing together, the others were talking to each other. This week was very amazing, and it was an amazing experience to be there.

All of us were very sad when it was time to say goodbye and to return to our normal life. Italy was very interesting, and somehow we grew together to a big family.
