My project: Mitternachts-Turnier – Midnight Tournament

1. Short description of project (What? Where and when? Why? Who? …)
Small teams of students, former students and teachers play against each other in the disciplines football, volleyball and voelkerball.
The tournament is going to be on the 8th of February 2019 and is going to start at 7 pm in the sports hall of the Otto-Hahn-Gymnasium.

2. Main goal(s) and objectives (What do you want to achieve?)
The tournament can be considered tradition at our school and improves the connection between various students or teachers, as sports so often does. Also it is a very nice opportunity for former students, who have already graduated, to see familiar people and places again.

3. Project team (Who is part of the team?)
The team mainly consists of the SMV of our school, as well as the paramedics and other volunteers, who will help at the final event.

3. Project plan (Who does what and when?)
See project plan worksheet

4. Resources (What do you need?)
The sports hall, as well as its sports equipment.
Catering – arranged by the paramedics.
People to help with refereeing and the technology.
Security

5. Constraints (Which obstacles might get in your way?)
Other events on the same date.
Not enough registrations.

6. Evaluation (Did you achieve your main goal? What went well? What went wrong? Which difficulties did you encounter? How did you solve them? …)
Although the date was planned on a short-term basis, enough teams registered. The main problem was getting enough of the teachers, because on the same day there was an important school meeting.

The event itself went really well, the atmosphere was really nice and some teams played until the night, even after the main tournament was already over.
