

My project: Teach Art in a 4<sup>th</sup> class

**1. Short description of project (What? Where and when? Why? Who? ...)**

This project is about teaching a lesson in a 4<sup>th</sup> class and give the students inspiration about the subject Art. We will help them to create an own lightglas with transparent-paper and glue.

**2. Main goal(s) and objectives (What do you want to achieve?)**

To teach the students well, so they have fun during this lesson, but also to familiarize the subject and that the students learn some dexterity.

**3. Project team (Who is part of the team?)**

Julia & Myself (also teachers)

**3. Project plan (Who does what and when?)**

See project plan worksheet

**4. Resources (What do you need?)**

- materials: transparent-paper,  
glue,  
white glasses (for everyone)

- location: Mozartschul in  
Neuhausen

**5. Constraints (Which obstacles might get in your way?)**

- bad timing during the lesson, (no time left)
- the students don't like our project (too difficult / boring)
- bad preparation (to less material)

**6. Evaluation (Did you achieve your main goal? What went well? What went wrong? Which difficulties did you encounter? How did you solve them? ...)**

Two practice-lessons: to less time left (better preparation!)
