Again: Rules for using the blog

1. DO NOT delete or change other people's posts. If you find something that you disagree with or that is offensive, tell your teacher. They will take care of this.
2. ALWAYS name the sources you used directly or indirectly at the end of your post.

Again: Rules for using the blog

3. Always remember to fact-proof your post.
4. Do not advertise anything. Especially not political parties. This is a school project and we have to stay neutral.

The rule is: *Inform but don't influence!*
