My favourite product of my own creation

*This project magazine was designed and pressed by Turkish school
“ Tarsus Sesim Sarpkaya Fen Lisesi “*

These are the pictures of painting exhibition “ My Favourite Product of My Own Creation “ that was carried out in Slovakia. In this exhibition all the project countries’ students and teachers showed their own art creation

MARBLING

Marbling is the art of creating colorful patterns by sprinkling and brushing color pigments on a pan of oily water and then transforming this pattern to paper. The special tools of the trade are brushes of horsehair bound to straight rose twigs, a deep tray made of unknotted pinewood, natural earth pigments, cattle gall and tragacanth.

RIBBON FLOWER

Things needed:

Satin ribbon 5/8 inch width, scissors, needle and thread, glue gun or any other super glue, buttons - pearl - rhine stones ...for the centre
Hold the ribbon with your thumb. Make loops of equal length. Pass your needle either on the left or right edge (not in the centre). Make sure that the needle is passed through all layers. Tie some knots to secure it. Trim off the extra thread. Open all loops to form flowers shape. Use some glue to stick the center of your choice

Every kind of animal and thing is done by our students in the art lesson by using dry leaves, walnut...etc

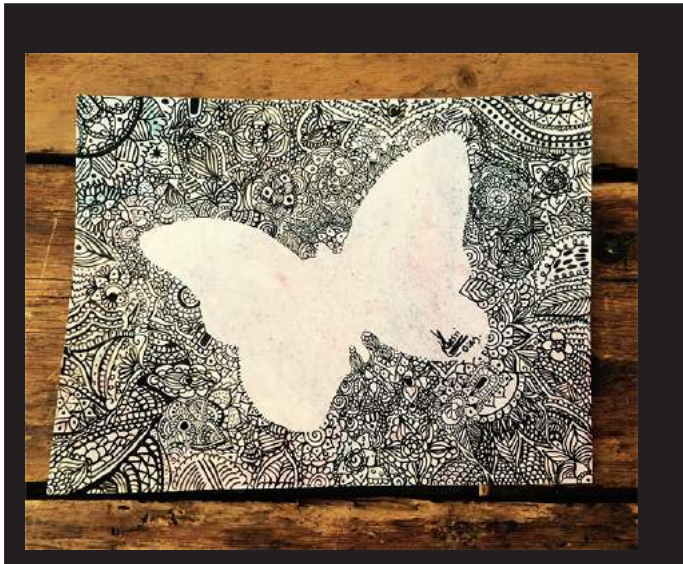

CREATIVITY KNOWS NO BORDER

Girl with flower Crown 2013, by Elena Riera
Material: HB2 pencil, paper
Made in 2013

I made it in spring, so I wanted to draw something delicate, related to flowers. One day I saw a picture of this girl, and I decided to draw it. I spent the whole afternoon drawing. It was the first time that I did a drawing like that, and I really liked the result.

The Body is the Mirror of the Soul,
by Salma Laasri
This is the shape of a butterfly
made with zentangle art. I used
black pen.

WOMAN, by Sonja Civit

I made this painting for a Project in my Art class. I wanted to recreate a scene with a dramatic but subtle lightning using White Paint on a black background.

Paper Flowers

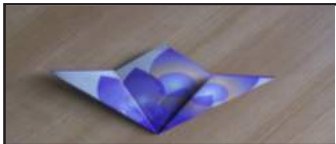

I love flowers. They are so beautiful but they do not last very long because they fade easily. To keep them „fresh“ for a long time you can create some flowers from cardboard patterned paper.

Step 1 Start with the patterned side of your paper face down. Fold the bottom corner of your paper up to the top to make a triangle.

Step 2 Fold the left and the right corners to the middle to make a square.

Step 3 Fold the left and right point so the folded line is even with the outside edge of the square.

Step 4 Flatten the flaps you have created.

Step 5 Fold the top triangles down.

Step 6 Fold the large triangles back using your earlier crease. Glue the outside triangles together.

Step 7 Repeat four times so you have five petals in all. These petals will be connected to form a paper flower.

Step 8 Glue your petals together to make the finished flower.

MANDALA

I decided to paint my own mandala. It is a picture of a person's spirit. When somebody makes his or her mandala, a lot can be known about him or her, considering the colours and used forms.

A mandala is a harmonic conjunction of a circle and a square. The circle is a symbol of the heaven, infinity and external forces. The square symbolises internal forces and it is a connection between the person and the earth.

I painted my mandala on silk. When I started painting, I had no idea what it would look like or which colours I would use. When painting, I used my intuition and gradually my personality and my soul were appearing, until the picture was done. I love trying new things, it is a perfect way to relax.

Dolls, book covers, a rose

I have always loved to be creative and make things in a different way . I like decorating everything what seems common and usual, for example books. I make covers for books because it is much easier for me to start studying when the book looks nice. I do the same with all the study materials, for example school notebooks. So, school items are my favourite things to decorate because I have to see them every day.

I also made a hair decoration - a rose - with my mum last December. We decided to do it for my prom because I didn't want to wear any jewelry, just something simple. This rose is really easy to make. You just need some fabric and a hair clasp.

I don't like to buy gifts so I decided to make these dolls and to give them as presents. They are also made from fabric. It usually takes me four or five hours to make a doll like this.

The other things like jars and a watering can are decorated with a decoupage technique which is really very easy. I like decorating everything in our house using this technique. For decoupage, you just need some napkins, glue, brush and a lot of patience.

Apart from doing the things I mentioned I like painting on T-shirts or making some decorations from paper.
