

Women in science

The most famous Croatian scientists

- Iva Tolic - biophysicist
- Zlata Bartl - scientist
- Blaženka Divjak - politician, scientist, professor, Minister of science and education
- Sibila Jelaska – educator

Best Scientist Award

- new scholarship recipients of the prestigious L'Oréal-UNESCO program "For Women in Science"
- Ana Barić
- Lidija Barić
- Andreina Belušić Vozila
- Svjetlana Dekić

Iva Tolic

- Iva Tolic is Croatian scientist who was born on June 24th 1974.
- She is married and she has 2 kids.

Work

Today she works in the Institute Ruđer Bošković, in Zagreb.

She has carried out pioneering research in the field of cell biology.

Education

- Degree in Molecular Biology
- University of Zagreb, Croatia
- in 1996

Doctorate degree

- Award – doctorate in Biology - 2002 year
- Mentor Ning Wang
- Harvard school of public health

Career

Institutes

- - Niels Bohr Institute, Copenhagen
- Max Planck Institute of Molecular Biology and Genetics
- Ruđer Bošković Institute

CAREER

Laboratories

- European Laboratory Non-Linear Spectroscopy

Post doctoral training

- Postdoctoral training (2003-2004)
- Postdoctoral training (2001-2002)

Research work

- Scientific advisor
- Research group
- early discoveries

Prizes and achievements

these are her state achievements

- National Science Award of the Republic of Croatia, 2016
- Croatian Women of Influence Award, 2016
- Special award of the Ruđer Bošković Institute for outstanding contribution to the scientific excellence and international recognition of the institute, 2015
- MRAK award for creativity in science awarded for the collaboration with the Ruđer Bošković Institute

Prizes and achievements

these are her international achievements

- European Biophysics Societies Association Young Investigators' Medal and Prize, 2015
- 5000th Grantee of the European Research Council 2015
- Investigator of the Year, European Life Science Award, 2014
- EMBO Membership, 2018
- Lieben Prize, 2017
