

Summary of external collaboration from Institutions and Universities

Professional training on environmental Issues has been offered to our project participants on the project's mobilities by Institutions and Universities of all 5 participating countries in our European School Association.

Dr Guido D'Urso from Federico II Naples University, Italy, lectured on "Water footprint of Food for a Sustainable Agriculture Concept and Technologies". We enjoyed a Speech from Prof. Dr. Göksel Altınışık Ergur about "The Secret of Long Life" in our visit to Nazilli, as well as Dr. Gülşah Sezen Akar's talk on Sustainable Production.

In Iași students and teachers were able to visit Iași University with collaborating professors from I Colegiul Agricol si de Industrie Alimentara "Vasile Adamachi-Romania. A speech about healthy food was given by PHD Dr. Claudiu Rosca From Iași University. We also attended a Speech about air Quality by a lecturer from Iași University of Medicine.

The project has also had the collaboration of the Polytechnic Department of Applied Sciences in Kalis in Poland hosted by our Coordinating School Zespół Szkolno-Przedszkolny w Debem-

Finally, to mention the interesting speech from the expert of Málaga University Dr Antonio Avilés, in Torremolinos, invited by IES Costa del Sol, who gave a talk on the importance of sustainability in the tourism sector. The conference was based on Andalucía's Natural Heritage.

To all of them: our gratitude!

Karen Quill

Project Coordinator
