

## RECYCLE CHRISTMAS

Our parents used to see films on TV through a videotape recorder; videotapes were sold in plastic cases to protect them. These cases are an "old thing" and they are no more used nowadays.

We have used these cases in a creative way because reusing and recycling is a way to help save the environment.

**REDUCE - REUSE - RECYCLE** are essential to reduce the consumption of natural resources and energy.

Our videotape cases have been turned into sweet boxes; after eating the sweets you can use them for pencils, cards, jewels, badges etc.
