## Any areas where the project did particularly well? Any areas of improvement for the project?

3 yanıt

Well: the coherence of the plan and each task; improvement: interaction between ALL partners.

Our project helped our students becoming familiar with foreign cultures .I think with the video chat that we organized , they came out of their shells and took courage to speak English.

This project achieved getting to know about each other's cultural aspects by its well planned activities and communication

As it seen from the results , our project achieved its goals in terms of clearing the way of communication.
