

Museum of illusions Sofia

The museum was opened in January 2020 in Sofia. It consists of illusions that are related to optical fraud and the perception of perspectives. The museum is spread over 400m² *and is divided into several halls:*

A historical hall with different paintings

Hall with
optical illusions

A room with phosphorous wallpaper which can be painted with light or leave a shadow on the wall

Facing room

This may sound ridiculous, but it is actually a joy for people.
