

GAZI V.T.A.HIĞH SCHOOL

Dear Future Generations,

Dear Future Generations,

I am Ikra,

I want to inform you about the current situation in our life. All the people have locked down because of COVID 19 pandemic. We have all had difficult life and passed a long time at our houses. Because of the pandemic we had distance education. Our social life have also changed and we had online meetings. We all have realised the importance of face to face education and the importance of social and active life. We have passed most of our time on the internet. I wish this pandemic will end as soon as possible. We have changed also, realized our faults. We have started to make a change in our life for leaving a better planet to you.

We must take care of the earth because there is only one earth.

We must realise we aren't apart from the nature.

Save the nature

Save yourself

Save the future generations

Sincerely,

IKRA

C.
