

Hello whoever you are

Im 15 years old and Im 180cm(Yeah, Im tall!)

So nice to meet you!

INFO: this letter was put into this capsule on spring....2021

Today it's Wednesday 19 of may 2021. In 9 years I don't know how things will be but I know what it's happening today.

Today is France the bars reopen, the curfew is moved to 9 pm and I hope that there won't be for our summer vacation at all. Maybe you are studying at this moment as a chapter of history what we have lived. Who know? It is not the apocalypse, nor a Third World War but a pandemic: Covid-19..

It's been a year and a half since we are confined or almost ...

I am in the first year of high school and I go to school every other day, everyone has masks, we do not kiss anymore and everything was closed (bars, restaurants, museums) until tonight. It's a bit of a mess to tell you the truth, nobody expected it and it really changed our lives. Well apart from that, I like the classes every other day, it gives me time to be less stressed, I do sport all day (running and bodybuilding) and I enjoy my garden, my animals, my family. The teachers might say to you, "but you have the weekend to rest and relax at home" but no, I clearly spend the whole weekend doing my homework or studying. That's why this rhythm is so much more relaxing;) I take the bus at 7.45 am to go to class, and I come home at 6.40 pm. Otherwise I have friends, I go to parties. I don't really know what to say ...

A year ago now, I was in Mexico, I made an exchange, a Mexican came to my place for 6 months and I left for 6 months, I couldn't see many things because we were also confined there, it still allowed me to learn Spanish fluently! If you too are interested in making an exchange, contact the association "En Famille international" (I don't know if it will still exist).

I have a tip for you: be yourself, enjoy every moment and don't be afraid to embark on new things or adventures, this is how you will grow!

Before we finish here are some facts from today that can give you some comparisons with your current lifestyle:

-a baguette tradition-> 1,10€

-a plane ticket to go to Spain->73,00€

-a place at the festival of old plows for a weekend-> 122€

-a sports mat from the brand "energetics" -> 24,99€

Good luck and believe in your dreams!
