

GAZİ MİTAL

Dear future generations

Hello I am Yusuf,

I want to talk about the importance of social life and face to face education.

Because of COVID 19 pandemic, we had passed difficult time.

We had our lessons online. We had remote education. I have missed my friends, teachers and school. Education is very important. We should have face to face education and learn in a real life learning atmosphere. More practice and exercise.

Now we have all took lessons from this bad event. I wish to return my normal life .

We should take care of our earth and protect our nature and animals.

Don't repeat the mistakes we have done so far.

Save the earth and don't lose all the beauties of the world and live a wonderful life.

Take care

Bye

Yusuf Ş.
