Endangered animals due to pollution

by REBECA ELENA SANDU

There is a lot of garbage on the road.
What will we do?
We'll take our tools and start collecting garbage.

Before it was like this

After i'm done, it looks like this

[pınar elitok](#) - 05.03.2021 @ 15:05

Environmental pollution is becoming a big problem today. The reasons for these are as follows.

- Migrations and irregular urbanization,
- solid wastes and garbage,
- Energy, water, paper, etc. used per person. increase,
- Fertilizers and pesticides,
- Deforestation, fires and erosion,
- Excessive grazing or destruction of natural vegetation

In addition to these, there are reasons that adversely affect our country and nature that arise from these reasons.

1-The geography of the world changes.
