

my trip to sycylia

After 5 hours of traveling I finally arrived to Sycylia to the city called Catania. First I got my luggage and after that I was taken by the family that hosted me. Then they took me to their home

where I left my stuff. After that we and another family that hosted my friend went to Taormina which was a really long street with a lot of shops and people trying to sell weird slimey stuff.

After that we went to some restaurant and then we went home furthermore there was a party at my host family house for every erasmus participants.

On the first 'real' day we didn't go anywhere outside of school, where we played sports after that my family and my friend's family went to

On the second day we went somewhere outside of school. We went to the kindergarten to watch some kids perform. After that we went to siracusa then we did some sight seeing there and ate dinner

at the local restaurant after that we went back to school.

The day after that we went to Piazza Armerina and after seeing it we went to Sicilia fashion village in which there were only shops with clothes so for me it was a waste of time

On wednesday we were supposed to play some sports but instead of that we went to the mall in catania where we could do some shopping and the next thing we did was that.

That we went to the tile factory.

On thursday we went to the botanic garden where we ate lunch. After that we went to see some huge cave and that was the end of the day.

On friday we did photo holders out of wood. and after that we went to the city center by train where we did a lot of sight seeing.

On saturday which was our last day me and every person from Poland sold some wooden manufacture. After that we ate some pizza. Instantly after that we took our luggages and went to the airport.

By the way everyday after the planned things our families always planned something for us. The family that hosted me was very welcoming and tried to be very helpful.
