Active Citizenship Evaluation Questionnaire

TOPICS OF SURVEY

Self-Knowledge/Self-Esteem/Social Security/Expression of Opinions/Social inclusion/
Social Justice/Rights and Duties/Co-determination/Participation/Active Citizenship/

SUMMARY

In October 2017 we gave a questionnaire with open-type questions to the students of D,E,F class (9-12+ years old) in order to survey their level of understanding terms and issues like belonging to a team, co-deciding, rights, duties, responsibilities, active citizenship. We reached the conclusion that our students are not familiar with the terms due to their special social background and the conditions they live in. (Roma origin, illiterate parents, choosing to live in Roma neighbourhoods exclusively, financial problems etc.)

So, we decided to create an electronic Google Form questionnaire for the same students separated in three parts: self-knowledge-belonging to a group-inclusion/co-deciding-participating-expressing opinion-rights and duties/rules-responsibilities-active citizenship based on the Index for Inclusion, the Greek curriculum for Civics school subject-5th grade and the questionnaires of the German and Cypriot partners.

The objective of the questionnaire is to give food for thought to students on the above topics, to familiarise them with the terms, to act as a guide or bank of ideas for discussing about the topics. We will repeat the procedure in a year with less guided questions to evaluate the progress in students' understanding and familiarising with the above issues and terms.
