

PROGRAMME ERASMUS+ / STUDENTS MOBILITIES

PROJET N° / PROJECT N° : KA122 S.A.V.E. (SUSTAINABLE DEVELOPMENT IN SCHOOLS: SAVE OUR PLANET WITH SMALL GESTURES)

Summary of the teachers meeting during the Preparatory Visit in Mytilene, Greece from February 8th to February 13th 2022

A teacher from Italy, Francesca PULVIRENTI, one from North Macedonia, Sonja JANKULOVSKA, one from Spain, David FILGUEIRA and three teachers from France, Evane LANFANT, Elodie SERVAN and Sophie DENIZOU met the Greek educational team of 1 PROTYPO GYMNASIO MYTILINIS in Mytilene coordinated by Rallou SPANELLI to prepare the activities and the mobilities of their Erasmus+ project entitled S.A.V.E (= School Actions and Voices for the Environment) and dealing with sustainable development in schools.

The first topic we discussed was the calendar of the mobilities. Indeed, some changes had happened since the writing of the application form, consequently some changes had to be made to the calendar of the mobilities for example the mobility to Italy and the mobility to North Macedonia were swapped.

This is the new calendar with the precise dates and also the name of the team in charge of some activities (films, Instagram account, Facebook group...) :

Mobilities

Country	France	Greece	Italy	Spain	North Macedonia
Date	31 March – 7 April 2022	15-21 May 2022	16-21 October 2022	25-31 March 2023	14-21 May 2023
Video (1)	Sonja North Macedonian team	Sophie French team	David Spanish team	Rallou Greek team	Francesca Italian team

(1) The host gives the music.

It was decided which team would be in charge of the film about the mobility (this appears on the table too) knowing that the film mustn't be made by the host team. However, the host team is ready to provide some music (free of rights) to be used for the film.

Responsibilities

North Macedonian team	Instagram account
Greek team	
Spanish team	
Italian team	
French team	Facebook group

It was also decided that the votes for the logo of the project would take place between February 21st and February 28th: 30 students in each school will vote + all the teachers, but they cannot vote for a logo made by a student of their school. [Twinspace \(etwinning.net\)](https://twinspace.etwinning.net/169523/home)

A prize will be given to the winner of the logo contest during the mobility to France.

Each participant had the opportunity to present their country, school and how their education system works.(through presentation, video, website, etc.)

During an eTwinning workshop led by Sonja, everyone checked the logos of their schools had been uploaded correctly on the Twinspace and some help was given to show how to create and edit a page on the Twinspace. [Twinspace \(etwinning.net\)](https://twinspace.etwinning.net/169523/home)

Rallou explained that her students were working on the following topics:

- 1) The school building (the orientation of the building, the thermal insulation etc)
- 2) What happens to waste in the school and the management of water.
- 3) The sources of energy in the school.
- 4) The school yard : are there any deciduous plants, trees that are shadowing+ on the south-east side of the building and protecting from the sun or evergreen trees on the north side protecting from the wind.

So we could all follow this plan with our students to make them describe the situation in their schools during the mobility to France. Each group could thus explain the situation concerning these 4 topics. After the oral presentations, some solutions could be discussed in international groups.
