It is a Multicultural School, with students originating from Albania, Bulgaria, Palestine, ex-Soviet Union and Rom.

Two other Primary Schools are housed in the same courtyard and there is a significant building problem.

Three classes, each year, are forced to be housed in special kibo-type classrooms.

Each class is taught by:

- one teacher that teaches the subjects of Language, Physics, Maths, Geography, History and Religion
- 7 special-subject teachers, in subjects such as Physical Education, English, German or French, Music, Art and Computer Science.

The school classes  
are mandatory from  
8am to 1:15pm and  
after that time the  
school operates an  
optional time zone  
until 4pm.

Our school has an Integration Department for students with learning disabilities, as well as a Reception Department for foreign students.

Despite the problems, our school is participating in several national programs and competitions in Greece, as well as in European Programs such as e-Twinning and Erasmus+.
