

CRIOSTAIL

"Crystals are living beings at the beginning of creation."

CRIOSTAIL

Together we have developed our product based on the effects of crystals on the human organism

It was very important for us to create something that is 100% eco. Our bottles are made from glass and crystals.

We import crystals from all over the world - different kind of crystals.

SOMETHING ABOUT US

NATALIA KASZYCA

I'm a chemist. I deal with the study of crystals on daily bases. My prime goal is to show people how crystals are important in our lives.

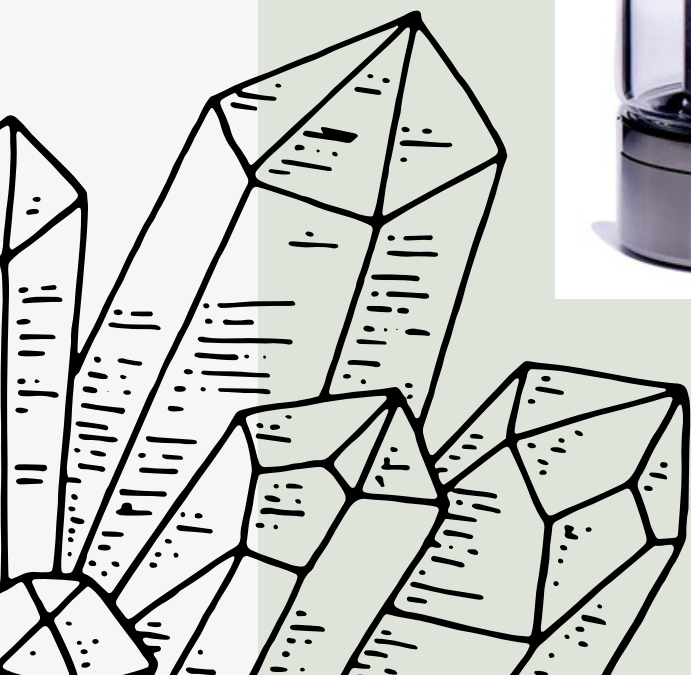

OLGA ROGÓLSKA

I work as a crystal properties researcher. My point in it is to show how therapeutical qualities can possitively influence our mental and physical health.

We started working a few years ago. What brought us together? Love for science and a common goal to show people something new

We are presenting you bottles of different volume

- 400 ml bottle costs 30\$.
- 700 ml bottle costs 50\$

We also have miscellaneous crystals

- **ROSE QUARTZ** the crystal of compassion, tenderness, and comfort. It makes for a pretty way to stay hydrated throughout the day, and perhaps a reminder when you need it to share some love. This crystal opens the heart chakra and is believed to encourage self-love and forgiveness, and to help you let go of anger, resentment, and jealousy
- **AMETHYST** It can awaken you to higher wisdom and connect you to guidance from beyond the physical world, but it's just as effective as a stone for physical healing too. As well as soothing headaches and joint pain, Amethyst also has an aura of tranquillity about it.
- **JADE** offers wisdom and abundance to those willing to work with its energies, and it can open your eyes to the innate duality of life
- **GREEN CALCITE** If you're looking to get back into harmony with nature, or are trying to find ways to escape the madness of big city life, Green Calcite can prove just the ticket. It has this magical quality of making life slow just a little – just enough to take some valuable you time, sitting on the beach or strolling the garden.
- **CARNELIAN** The vibrant orange of Carnelian might look like the warmth of sunset, but this is one stone that will leave you anything but tired. There is a strong undercurrent of vitality to this stone that perks you up and electrifies your mind with ideas and ambitions.
