

About Sustainable Development...

We must be aware of the tough situation that small business are going through.

That's why all of the ingredients we buy and you receive from us, are from local shopping.

Also, we know that there is a lot of poverty all around the world. That's why we don't waste a single gram of food. Every meal that is made in each virtual class, is destined to charity canteens.

About Us...

Hey! We are David Gonzalez and Andrea Echeverry, two young entrepreneurs. We created this company due to the actual situation with COVID-19. We are aware that we must keep social distance as much as we can, but we cannot give up on our cultural growth. That's why our online Spanish cooking courses are the best choice.
