

Discover and Learn

The name of our company is *Discover and Learn*. It means that you can explore and discover new places, have a good time and live new adventures and at the same time without realizing you are learning.

Logo

Slogan

Our slogan is *Unify Your Senses*. We are a company that is dedicated to rural tourism, but not only that, we go further, we also focus on the gastronomy of the place (the taste), the smells, the places to see ...

Presentation

We are David Jesus, Noah García and Carlos Vior.

Our idea is focused on rural tourism, in addition our principles will be based on a social and respectful company with the environment adapted to the new times.

Short profile

Our initiative has different main reasons, among them to decongest large tourist cities, give visibility to unknown Spain and fight against rural depopulation.

Main service

The service we offer is based on attracting a model of tourist who likes historical monuments, places of cultural interest and important moments in the history of Spain, nature and Spanish gastronomy.

People in general like to touch the products, in order to make our service more tangible and better satisfy our customers we have made these boxes where it carries various travel options and information, all according to your interests (gastronomy, excursions, hiking, relaxation ...)

Prices are highly variable, it all depends on the pack you are looking for and what your interests and preferences are. It also depends on the number of people, the length of stay does include the gastronomy bonus that we offer...

Therefore it could be said that the purchasing power of our potential clients could be medium and if you want a more luxurious package medium-high level.
