

NATURAL HOME-MADE SOAP

INGREDIENTS:

- Natural soap base
- Soap essence
- Food coloring
- Silicon models
- Thermometer

PREPARATION :

- Melt the natural soap base in 55-60 . When the base comes to 45-50 C put the dried lavender seeds and lavender essence into the mixture.
- Pour the mixture carefully into the silicon models (Be careful not to have bubbles)
- Wait for half an hour to freeze up

Note: Instead of lavender seeds , you may use dried rose leaves,orange peel , coffee seeds
