

TENNIS

Tennis is a sport that can be played individually against a single opponent or between two teams of two players each. Each player uses a tennis racket to strike a ball over a net and into the opponent's court. The object of the game is to play the ball in such a way that the opponent is not able to play a good return. The opponent who is unable to return the ball will not gain a point, while the opponent will.

Tennis is an Olympic sport and is played at all ages. The sport can be played by anyone who can hold a racket, including wheelchair users.
