

The Most Famous Sport in Romania

~ Football

Football is the most popular sport in Romania. It is usually played by adults - especially men - and children, mostly boys.

There are a lot of football teams in Romania and a lot of people go to stadiums to watch the matches. Most people are interested in football, so they know the football clubs and they know when the matches take place. Friends and families gather out a single house and spend evenings watching football on TV. It's an opportunity for them to bond and to talk about one of their interests.

In a football match, there are two teams which have eleven players and one goal-keeper each. There are five referees on the field and the other usually stays in the middle.

Many competitions take place yearly between football clubs, like Steaua, Dinamo, Rapid, FCSB. Teams from different countries take part in a championship every few years. The next championship will take place in 2018.

All in all, football is a sport enjoyed by most people. It's relaxing and it's an interesting subject in a conversation.
