

My experience in Erasmus+

Hello! My name is Maria-Rojin Tali and I'm a thirteen-year-old volunteer in the Erasmus+ Project.

My experience in this project has always been great, because it's my pleasure to help my colleagues and see their grades slowly rising. I enjoy helping people because I know that they need our help. It helps them understand that being stuck and not knowing something doesn't mean they're stupid.

This project helped us all understand that we are all equal and receiving support is normal and not a shame. Our colleagues got better at school after joining this project and I'm honestly very happy to see their progress.

This is my experience in Erasmus+ and I really enjoy this project.
