

DESCRIPTION OF MY FAVORITE TOP ATHLETE

SAŠO BERTONCELJ

Sašo Bertoncely is a great Slovenian gymnast. He is my idol because I am training gymnastics too. He wins Slovenia's first gold medal at European games in Baku in June 2015.

He was born in Kranj on the sixteenth of July 1984. His father is Milan and his mother is Majda; she is a gymnastics coach. He lives in Gorenja vas near Reteče.

When he was only seven he started training gymnastics at Narodni dom in Ljubljana. He began competing in the sport in 1991. He is training on pommel horse. From the beginning his trainer is Sebastjan Piletič.

Sašo and his mother has their own gymnastics and fitness center 'Matrica' in Škofja Loka. Sašo trains and does exercises there every day. I meet him there often, because I am training gymnastic in 'Martica' three days a

week. When I was five and I started training, he was my cocah, now my coach is his mother Majda.

His biggest achievement are two medals from European championship (2010, 2014) and gold medal from European games in Baku 2015.

Sašo's great ambition is to win a medal at the 2016 Olympic games in Rio de Janeiro.

He is the only top athlete that I know personally, and I am very proud of that.
