

PEER LEARNING METHOD

I met with helping others in the past, when I was helping my classmate with her English, but that didn't last long because she wasn't really interested in it. This year I started helping younger children with their homework and I really enjoyed it. The children were very nice and it felt really good to help someone and make them happy. I learned a lot of new things and had a lot of fun. I am also very happy and excited for my trip to Italy this Sunday. I think it's going to be really fun and educating and definitely worth working for.

Z nudenjem pomoči drugim sem se srečala že v preteklosti, ko sem sošolki pomagala pri angleščini, a sem to hitro zaključila, saj za to ni bila zainteresirana. Letos pa sem začela pomagat mlajšim otrokom z domačimi nalogami in v tem sem res uživala. Otroci so bili prijazni in počutila sem se zelo dobro, ker sem jim lahko pomagala in jih s tem osrečila. Naučila sem se veliko novih stvari in se pri tem zabavala. Se že veselim oditi v Italijo v nedeljo. Mislim, da bo zelo zabavno in poučno in definitivno vredno vsakega dela.
